

## **To whom it may concern**

This is to certify that Mr. Dhruv Talwar has completed an Industrial Project with Micron, India from 29th May till December 2020

He has successfully completed the Industrial Project – “UV Robot Design and Prototype” under Micron’s Design contest. He designed an autonomous robot capable of disinfecting buildings by leveraging the use of UV lights. These efforts were a part of Micron Inc's global efforts to combat the spread of the novel corona virus and provide it's employees and the general public with safer workspace environments.

Being adjudged the top design, Micron Inc has further decided to develop a prototype of their design in collaboration with Indian Institute of Technology, Delhi.

This work is carried out by him under the guidance of guidance of Amit Bhardwaj from Micron India.

We wish him all the best for his future endeavors.

Anand Ramamoorthy

A handwritten signature in cursive script that reads 'Anand Ramamoorthy'.
